
#BusinessDoneBetter
with **MTN Business** Uncapped Wireless

MTN Business Uncapped Wireless uses a small receiver and router to deliver robust, seamless connectivity at speeds of up to 100Mbps, making it as good as fibre. The receiver connects to the MTN network without line of sight. It's perfect for urban, rural or township-based businesses, without the inconvenience of waiting, digging, or trenching. Choose an affordable package to meet your connectivity needs and get business done better — faster.
